### Company Profile:

**Ahram Security Group** was first established in 1945 by the pioneering industrial businessman "Late Eng. Ezzat Aref". The factory was first built in Amirea industrial region. It was formed of three stories covering an area of 5000 meter squared.

In 1990, it was relocated in the 10<sup>th</sup> of Ramadan City, covering an area of about 20,000 meter square. The factory is operated through 750 professionally well-trained engineers and technicians.

**Ahram Security Group** has learnt that the way to meet consistent quality and the increasing demands of international customers is to have a fully integrated manufacturing operation from

the purchase of basic metal to the assembly of finished locks within one factory. All preparation, forming, painting, plating, finishing, component and key manufacture are undertaken in-company.

**Ahram Security Group** applies a continuous improvement system that provides advanced manufacturing technology techniques. Through its race for quality, ASG has got the ISO 9001.

**Ahram Security Group** doesn't serve the local market only; it also serves the global market through its export function that has so far penetrated 25 different countries. Seeking international standards, **Ahram Security Group, ASG**, has been fully cooperating with Italian, German, British and American top manufacturers in the field of locks and security.

It also provides a wide product range of mechanical solutions that includes, **Mortise Locks, Cylinder Mortise Locks, Rim Door Locks, Drawer, Cupboard Locks**, that are all produced under the company's several brands such as **Ahram and IZO**. In addition, the company also manufactures knob set locks (**Weiser**).

The group did not limit its operations to mechanical solutions only since it also provides electronic solutions that includes Uniqey Electronic Hotel Locks, Access Control and Biometric Fingerprint Verification.

**Ahram Security Group** has always thrived to be a major player within the market of security solutions in Egypt and across the world aiming at providing a high quality product that is at the consumer's reach, offered at competitive prices.
